Densimeter ASTM 650-700 without mercury 312H: 0.5kg/m3

Product codes:

Reference:
PC203-00025
EAN13: -
UPC: -

Product attributes:

Product description:

- Standardized densimeter / aerometer graduated in kg/m3

- 312H Series

- Amplitude: 650 to 700

- Calibration temperature: 15°C

- Length: 330mm

- Reading below the meniscus

This densimeter complies with the American ASTM standards issued by the ASTM E100 committee (American Society for Testing and Material).

On the scale you will find indications regarding calibration temperature, surface tension, standard and individual instrument number.

An indelible mark engraved on the shaft prevents any movement of the scale that may occur.

For use in the oil industry, among others. Particularly for gas, oil, and aviation fuel.
