Densimeter ASTM 800-850 without mercury 315H: 0.5kg/m3

Product codes:

Reference:
PC203-00027
EAN13: -
UPC: -

Product attributes:

Product description:

- Densimeter / Standardized aerometer graduated in kg/m3

- 315H Series

- Amplitude: 800-850

- Division: 0.5

- Tolerance: ±0.5

- Calibration temperature: 15°C

- Length: 330mm

- Reading below the meniscus

This densimeter complies with the American ASTM standards issued by the ASTM E100 committee (American Society for Testing and Material).

On the scale you will find indications regarding calibration temperature, surface tension, standard and individual instrument number.

An indelible mark engraved on the shaft prevents any movement of the scale that may occur.

For use in the oil industry, among others. Particularly for gas, oil, and aviation fuel.
