Product attributes:

Product description:

Our selection of butterfly valves with double-acting actuators includes the models most commonly found on refuelling vehicles. Application: Butterfly valves with double-acting actuators are generally used to automate the selection of distribution lines and/or fluid switches in piping systems. Advantages: They have the advantage of being perfectly waterproof thanks to their very high quality elastomer sleeve, which also seals the flanges without any additional seals. Contact us for more information or if you can't find the right product for you. Fluid flow cross-section: 80mm (2'') Pressure resistance: 10 bar Maximum temperature: 60°C
