Product description:

Gorman-Rupp O Series® self-priming centrifugal self-priming pumps are perfectly suited for fuel distribution on bar feeders. Their design allows stable performance and low maintenance. Application: Pump for bar feeder equipped with a distribution unit with a flow rate up to 80m3/h. Advantages: Extremely reliable, the direct suction design without check valve removes intake restrictions, allowing fast and reliable self-priming with few moving parts for minimal maintenance and increased efficiency. Features: - Max flow rate: 75m3/h - Suction flange: 3" (use Victaulic collar) - Discharge flange: 3"'. - Direction of rotation: Clockwise - Volute: aluminium - Drive: PMT - Weight: 35,5 kgs
