Product attributes:

Product description:

Long proximity sensor M18 NO + NC 8mm. These Omron E2A Proximity Sensors detect distances approximately 1.5 to 2 times longer than standard proximity sensors. The sensor is delivered in a cylindrical brass housing and has the IP67 and IP69K standards for optimum protection against water, high vibration resistance and high immunity to electromagnetic noise. Manufacturer: Omron Product Category: Proximity Sensors RoHS: Details Detection method: Inductive Detection distance: 8 mm Output Configuration: PNP Max operating temperature: + 70 C Operating temperature min .: - 25 C Series: E2A Barrel size: M18 Brand: Omron Automation and Safety Operating supply voltage: 24 V Number of parts of the factory: 1 Shortcuts for item N °: E2AM18 Weight of the unit: 85 g
