Hydraulic oil cooler 190LPM

Product codes:

Reference:
PC434-00003
EAN13: -
UPC: -

Product attributes:

Product description:

The REDS-MRO HYCOOLER cooler is used on hydraulic drives. For pumps and compressors, it integrates 3 functions:
• Oil tank
• Oil cooler
• Pressure-limiting safety valve (Up to 190litres / min pressure 270 bar)

ADVANTAGES
• Easy installation on all types of vehicles in a small space thanks to a small footprint
• Compact design with centrifugal fan provides maximum performance and heat dissipation up to 10Kw (13.5hp)
• Built in stainless steel
• Equipped with an adjustable safety valve
• Its lightness combined with its small oil tank allows you to increase the payload of the machine and reduce any risk of pollution by oil loss
• The clogging indicator located on the front panel makes it possible to visualize the level of clogging of the oil filter, and thus to predict its replacement.
• Oil level alarm
• Oil temperature alarm

• Thermostatically controlled start at set temperature for longer equipment life and lower energy consumption
