Product description:

The HL 91 level indicators are directly connected to the reservoir to check the level and temperature of the hydraulic fluid.

There are 3 different sizes available with 76 mm, 127 mm and 254 mm centers and are equipped with M10 or M12 fixing screws.

Versions with a thermometer are also available.

The outer protection is made of anodized aluminum to provide strong impact resistance, while the central body is made of transparent polyamide.
