Product attributes:

Product description:

Series 60 double shut-off couplings are versatile and can be used in

a wide range of hydraulic applications where fluid lines need to be connected and disconnected.

Features :

• Accepts ISO 7241-1, Series B compliant nipples

• Poppet valves along with a metal to metal valve stop

maintains valve alignment and prevents flow checking

• Steel, brass, and stainless steel material options

• Brass couplers have double O-rings and stainless steel

locking balls

• Steel coupler sleeve and steel nipple body are hardened to

be wear resistant

• Standard end configurations include female pipe and straight

thread ORB

• Optional Sleeve-Lok and alternative seal materials available

Applications include :

• Industrial hydraulic lines

• Food and chemical processing

• Water and coolant lines

• Mobile equipment

• May be used with some gases
