UPC: -

Product attributes:

Product description:

Series 60 double shut-off couplings are versatile and can be used in a wide range of hydraulic applications where fluid lines need to be connected and disconnected.

Features :

- Accepts ISO 7241-1, Series B compliant nipples
- Poppet valves along with a metal to metal valve stop maintains valve alignment and prevents flow checking
- Steel, brass, and stainless steel material options
- Brass couplers have double O-rings and stainless steel

locking balls

- Steel coupler sleeve and steel nipple body are hardened to

be wear resistant

- Standard end configurations include female pipe and straight

thread ORB

- Optional Sleeve-Lok and alternative seal materials available

Applications include :

- Industrial hydraulic lines
- Food and chemical processing
- Water and coolant lines
- Mobile equipment
- May be used with some gases
