Product description:

D**esign Concepts Eaton’s Carter Model 64015 Ball Valve is designed to mate with various manufacturers’ underwing refueling nozzles to provide ease of strainer inspection and to add a true swivel action to the combination unit. Model 64015 is available with a variety of options for customizing the unit to fit various requirements. In one form, the strainer can be checked without the spillage of any fuel. In its simplest form, fuel spillage caused by the checking of the strainer is minimal.**
