Coalescer/separator element OS-61288

Product codes:

Reference:
PC214-00192
EAN13: -
UPC: -

Product attributes:

Product description:

Features

- Brand:Velcon
- Micron Rating (µm):0.5
- Application:Aviation, Diesel
- Media:Teflon Coated Separator with Coalescer/Filter
- Seal Material:Buna N Radial
- Length (inch):13
- Outside Diameter (inch):6
- Filter Type:Coalescer Separator
- pH Range:Continuous Operation: 5 - 9
- Maximum Operating Temperature:240 °F, 115 °C
- Minimum Collapse Strength:75 psid

Application

The OS Series coalescer/separator cartridges filter solid contaminants and remove water from aviation fuel. They are designed to fit various types of filter housings. Performance is enhanced

by Teflon® coated separators and high quality radial sump seals.

Flow is from the outside in through the cartridge. Coalesced water is pushed through the separator for daily draining and clean fuel exits the cartridge through the top nozzle.
