Filter cartridge CDFX-210B "WATER BARRIER VELCON"

Product codes:

Reference:
PC214-00285
EAN13: -
UPC: -

Product attributes:

Product description:

Features and benefits

- Innovative barrier technology:

Water and dirt are prevented from passing downstream of the filter, allowing only clean, dry fuel to be used.

- Performance in line with current EI and JIG specifications:

Emulsified water defence and full plug protection.

- Cost and resource efficient:

Fits into currently deployed filter monitors...without the need for costly retrofits or the addition of electronic water passage control sensors.

- No more worries about migration of SAP (super absorbent polymer) media or extrudables downstream and into filtration systems.

- Compatible materials:

Uses industry standard materials of construction (nylon, PTFE and urethane).

For more information or a detailed discussion of your specific requirements, please contact Parker or a Parker authorised distributor.

Technical specifications

Flow rate:10 USGPM (37.8 Lpm) Compatible competitor reference:Facet: FG-210-7 / Faudi: M.2-261 /6

Length :10 ^{13}??? inch (274.63 mm) Division :Hydraulic & Industrial Process Filtration EME

Brand :Parker Technology :Filtration Product

Type :Fuel Filter Type :Water Barrier Product

Series :CDF-X Application :Aircraft Refuelling

Sector :Aerospace Materials Used :Nylon PTFE Urethane
