Filter Cartridge CDFX-230B "WATER BARRIER VELCON"

Product codes:

Reference:
PC214-00286
EAN13: -
UPC: -

Product attributes:

Product description:

Features and benefits

- Innovative barrier technology:

Water and dirt are prevented from passing downstream of the filter, allowing only clean, water-free fuel to be used.

- Performance in line with current EI and JIG specifications:

Emulsified water defence and full plug protection.

- Cost and resource efficient:

Fits into currently deployed filter monitors...without the need for costly retrofits or the addition of electronic water passage control sensors.

- No more worries about migration of SAP (super absorbent polymer) media or extrudables downstream and into filtration systems.

- Compatible materials:

Uses industry standard materials of construction (nylon, PTFE and urethane).

For more information or a detailed discussion of your specific needs, please contact Parker or a Parker authorised distributor.

Technical Specifications

- Flow Rate:30 USGPM (113.65 Lpm)
- Compatible Competitor Part Number:Facet: FG-230-7 / Faudi: M.2-770/6B
- Length:30 ^{13}??? inch (782.63 mm)
- Division:Hydraulic & Industrial Process Filtration EMEA
- Brand:Parker
- Technology:Filtration
- Product Type:Fuel Filter
- Filter Type:Water Barrier
- Product Series:CDF-X
- Application:Aircraft Refuelling
- Industry:Aerospace
- Materials of Construction:Nylon
  PTFE
  Urethane
