Product description:

SI Series - Canister Separator

Fully Qualified to EI 1581 5th Edition, Category M

Separator SI-542 Series - Data Sheet #1943 The SI-542 Series separator canisters are made to fit over first stage coalescers in DOD military vessels such as those originally made to the MIL-F-27629, MIL-F- 27630, and MIL-PRF-52308 specifications.
The inner Teflon coating repels water droplets as fuel exits the canisters, adding another layer of protection to the fueling system. The water droplets in the annular gap between the outside diameter of the coalescer and the inside diameter of the separator canister fall to the sump area at the bottom of the filter vessel, where they can then be drained. **Technical Specifications**

- Certificates:EI1581, Category M, M100
- Application:Military Aviation
- End Cap Configuration:Open-End with Bayonet Mount
- Length (inch):42.5
- Outside Diameter (inch):5.23
- Inside Diameter (inch):4
- Micron Rating:140 ?m

- Media:TCS
- Brand:Velcon
- Filter Type:Separator
- Application:Military Aviation
