UPC: -

Product attributes:

Product description:

The **manhole cover gasket** ensures a perfect seal once the hatch is closed after an inspection or maintenance operation. Without it:

- Risk of **fuel contamination**
- Risk of **flammable vapor leakage**
- **Non-compliance** with aviation safety standards (e.g., JIG)

Main functions of the manhole cover:

- **Visual inspection** of fuel level
- **Internal tank inspection** (cleanliness, corrosion, presence of water or sediments)

- **Preventive or corrective maintenance** (cleaning, draining, servicing)
- **Sampling for quality analysis** (in accordance with EI/JIG standards)
- **Safety access** in case of an emergency or incident
